### **General Description**

Daimler Trucks North America LLC (DTNA), a Daimler company, is the largest heavy-duty truck manufacturer in North America and a leading producer of medium-duty trucks and specialized commercial vehicles. Headquartered in Portland, Oregon, DTNA, along with its affiliate company ***Detroit Diesel Corporation (DDC)***, is the largest and most diverse company in the North American commercial vehicle market. With our network of affiliate Daimler companies, we are also the leading provider of heavy- and medium-duty diesel engines, commercial vehicle axles and other components.

***Detroit Diesel Corporation*** engine manufacturing plant is located in Detroit/Redford Michigan, USA.

### **Job Description**

The scope of the internship involves close collaboration with the manufacturing departments, such as Assembly and Machining, as well as supporting functional areas such as logistics, quality, technical services, engineering, finance, IT, sales and marketing. Together with the project manager, the intern supports various and diverse projects aimed towards increasing production efficiency, and cost reduction, but also creating cost transparency in the manufacturing plant.

The intern will have following main responsibilities:

- Support in the operational budget planning process
- Calculation of the Product Unit Cost
- Analytical support of Operations Management
- Analysis of monthly Operations expenses vs. budget
- Creating Management Presentation about financial status of the business
- Development of key performance indicators (KPIs) for the plant to better steer the business
- Initiate continuous improvement ideas and proposals that focus on cost saving and revenue enhancement. Create reports and prepare management reviews
- Perform special projects and assignments as required

### **Basic Qualifications**

- Currently studying Business Administration, Finance/Controlling, Management, Science, and/or Engineering
- Strong business mindset geared towards business excellence
- Strong analytical skills and team player
- Proficiency in Microsoft Office (esp. MS Excel and MS Powerpoint)
- Ability to translate business needs into technical requirements and vice versa
- Minimum of two years of college required, Bachelors preferred
